Commissioner for Patents

Sir:

SECOND REQUEST FOR CORRECTED FILING RECEIPT

It is hereby requested that the Filing Receipt for the above-identified application be corrected to reference under the "*Domestic Priority data as claimed by applicant*" part of the Receipt the present application's claim to Provisional Application Serial No. 60/291,647, filed May 18, 2001.

Reference to the provisional application was noted in a Preliminary Amendment, filed in this application on September 17, 2003, as well as on the application transmittal sheet and the Inventors Declaration.

On the basis of these references to the '647 provisional application, a "Request for a Corrected Filing Receipt" was filed in the present application on April 25, 2005 to request acknowledgement by the USPTO of the claim in the present application to the benefit of the '647 provisional application.

On May 5, 2005, the USPTO Office of Initial Patent Examination issued a "Response to Request for Corrected Filing Receipt" denying the "Request for a Corrected Filing Receipt" on the ground that the '647 provisional application to which priority is claimed was filed over a year prior to the filing date of the present application.

On May 10, 2005, the undersigned spoke with Ms. Stokes in the Office of Initial Patent Examination regarding the "Response to Request for Corrected Filing Receipt" denying the "Request for a Corrected Filing Receipt". In that conversation Ms. Stokes explained that the paragraph added to the beginning of the present application's specification by the September 17, 2003 Preliminary Amendment needed to be amended as follows:

"This application is a divisional of Application Serial No. 10/147,907, filed May 20, 2002, and which claims the benefit of Provisional Application No. 60/291,647, filed May 18, 2001, the entire contents of which are hereby incorporated by reference in this application."

Submitted with this "Second Request for a Corrected Filing Receipt" is an "Amendment After Allowance" which seeks to effect this amendment to the paragraph at

Ozgur *et al.*
Serial No. 10/663,986

Enclosed is a copy of the Filing Receipt for the above-identified application, annotated in red ink, to show the requested correction. It is respectfully requested that the U.S. Patent Office records for this application be corrected as noted on the annotated Filing Receipt so that such corrections appear on the patent to be issued from this application, and that a Corrected Filing Receipt reflecting such changes be issued for this application.

While it is believed that no fee is required for filing this *Request For Corrected Filing Receipt*, the Commissioner is hereby authorized to charge any deficiency in the fee that may be due to the deposit account of Nixon & Vanderhye, Account No. 14-1140.

Respectfully submitted,

NIXON & VANDERHYE P.C.
